

AES-128 Low-Power Encryption Waveform

Single-page poster view | decimal test_id and round | six self-checking testcases passed

PASS = 6

Waveform Interpretation

start: one-cycle trigger for each AES encryption | DUT.round: decimal AES round counter from 1 to 10
done: ciphertext is valid and listed in the table | clk_en: low-power enable; testcase 6 shows stall/resume behavior

Ciphertext Results

ID	Testcase	Ciphertext (grouped hex)	Status
1	NIST FIPS-197	69c4 e0d8 6a7b 0430 d8cd b780 70b4 c55a	PASS
